Donohoe Receives Hilton's "Outstanding Achievement" Award

Bethesda, MD - The Donohoe Companies, Inc. is pleased to announce its receipt of Hilton Hotel's 2007 "Outstanding Achievement" Award, in recognition of its Hilton Garden Inn project in Bethesda, Maryland. The award was presented on May 8th at Hilton's annual Owner's Conference in Dallas, Texas.

Hilton Garden Inn Bethesda will be the first new hotel in Bethesda in over 20 years. The Hotel is being recognized prior to opening for the superior design and complicated development process required for the urban in-fill site. The project, a joint venture with TIAA-CREF, is being developed by Donohoe Development Company and was designed by BBG-BBGM Architects & Interiors. Located at 7301 Waverly Street in downtown Bethesda, the Hotel and its conference facilities will complement the shops, restaurants, and offices of the surrounding Air Rights Center. Donohoe Construction Company is building the hotel, and Donohoe Hospitality Services will manage the 216-room facility upon completion. The Hilton Garden Inn Bethesda is scheduled to open in December 2009.

The Donohoe Companies, Inc. celebrates its 125th anniversary, headquartered in Washington, DC. A division of The Donohoe Companies, Donohoe Development Company has developed over one

billion dollars of office, hotel, retail, industrial, residential and embassy projects since 1955. The success of these projects -- many of which are Washington landmarks -- reflects our experience in creative problem solving, negotiation, team building, obtaining approvals and addressing community concerns.
